

 **Alpha**
MINERALS 

About Company...

At Alpha Minerals we specialize in delivering **premium silica sand and mineral products** tailored to meet diverse industrial needs.

With years of industry expertise, we have built a reputation for **quality, reliability, and customer satisfaction**. Our materials are sourced from trusted mines and processed using advanced techniques to ensure **high silica content, low impurities, and superior performance**.

WE SERVE INDUSTRIES INCLUDING

Foundry

Ceramics

Construction

Chemical & Gas
based Industries

Glass Manufacturing
Industries

Our goal is to become a **trusted global partner** in mineral supply by maintaining excellence in every grain we deliver.

Our Vision ...

To become a leading and trusted name in the mineral industry, known for delivering high-quality silica solutions across global markets.

Our Mission...

To provide **premium quality products** with consistency

To build **long-term customer relationships**

To adopt **innovative and sustainable practices**

To ensure **timely delivery and customer satisfaction**

Our Product Range ...

FOUNDRY GRADE SILICA SAND

Ideal for mold and core making with excellent strength and thermal resistance.

GLASS GRADE SILICA SAND

High purity and low iron content for clear and strong glass production.

CERAMIC GRADE SILICA SAND

Used in ceramic bodies and glazes for better durability and finish.

WASHED & GRADED SAND

Uniform particle size for precise industrial applications.

INDUSTRIAL MINERALS

Wide range of minerals for various industries.

SILICA POWDER

Used in paints, coatings, chemicals, and fillers.

CONSTRUCTION GRADE SAND

Perfect for concrete, plastering, and infrastructure projects.

GAS'S GRADE SILICA SAND

Specially designed for gas-based and high-temperature applications with:

- High thermal resistance
- Low moisture
- Uniform grain size

QUARTZ SAND & LUMPS

High-quality quartz for glass, electronics, and refractory industries.
